DIV OF WATER RESOURCES
RECEIVED

Mr. McAdoo,

Attached is the Inter-Basin Transfer Report for Plateau Utility District, inter-basin transfer permit number IWTOLD016, for the reporting period from June 29, 2012 through July 31, 2013. In addition, due to the merger with our neighboring utility Sunbright Utility District in June of 2012, some of the information may differ from previous year's reports. However, Plateau Utility District is located within the Upper Tennessee Clinch-Emory River Basin and provided water to what was known as Sunbright Utility District which is now Plateau, who then distributes a portion of the water to the Upper Cumberland River Basin. The "newly merged" Plateau Utility District has assessed that approximately 23 percent of their distribution system lies within the Upper Cumberland River Basin. Therefore it is safe to assume that approximately 23 percent of the total quantity of water is transferred to the Upper Cumberland River Basin. As such and pursuant to the Tennessee Code Annotated Title 69, Chapter 7, Part 2 (i.e., § 69-7-211), Plateau Utility District is required to report to the Tennessee Department of Environment and Conservation the quantity of water transferred between basins. This submittal should satisfy the aforementioned requirements. If you have any questions or need additional information regarding the Inter-Basin Transfer Report please contact me at (423)223-6383 or Mike Monroe at (423) 319-7791.

Respectfully,

Michael Woods

Plateau Utility District

6/29/2012	29	693,000	311,850	10,753	1,771	4,660	5,728

**Plateau Utility District is located in both the Upper Tennessee Clinch-Emory River Basin and the Upper Cumberland River Basin. Approximately 23% of PUDs customers reside within the Upper Cumberland River Basin. Therefore, 23% of the total quantity of water is transferred outside the Upper Tennessee Clinch-Emory River Basin.
